Jackie

We visited Kohler Andrae during the 2016 TSA but have no specific findings related to ozone data at that site. There was only a MET tower height non-conformity which measured at 8.1 meters.

The most recent TTP in AQS for 55-117-0006 was August 19, 2014—see the sixth page. It passed easily. All the checks in general look really good.

B –

Do we have any TSA records related to the Kohler Andrea monitor in Sheboygan County Wisconsin (monitor ID: 55-117-0006). I will upload the ANP approval letters that I have (at least the last 2 years).

Thanks.
